Olivia Powell

IT SUPPORT | NETWORKING | CLOUD COMPUTING | CYBERSECURITY

contact@livpowell.dev

PROFESSIONAL SUMMARY

Networking Technology and Cloud Computing student at Mississippi Gulf Coast Community College, expected to graduate Summer 2027. Participates in supervised cybersecurity assessment work through MGCCC's Industrial Training and Assessment Center for Cybersecurity (ITACC). Academic and lab experience with Cisco networking, AWS, Microsoft Azure, virtualization, and API-driven application development. Completed AWS Cloud Practitioner training and preparing for the certification exam.

CYBERSECURITY EXPERIENCE

Cybersecurity Assessment Intern

PRESENT

Industrial Training and Assessment Center for Cybersecurity (ITACC) | Mississippi Gulf Coast Community College

Participate in supervised assessment work for small businesses and small- and medium-sized manufacturers. The ITACC process centers on an introductory conversation and guided Q&A about current cybersecurity practices, followed by findings and prioritized recommendations. Assessments are designed to avoid disrupting operations and do not include active network scanning or internal network evaluation.

- Interview clients about cybersecurity practices and existing controls.
- Review business practices against CISA Cybersecurity Performance Goals.
- Document findings and contribute to assessment reports and prioritized recommendations.
- Join client-facing Webex meetings and professional discussions.

TECHNICAL SKILLS

Networking: Cisco IOS CLI, Packet Tracer, basic router/switch configuration, VLANs, IPv4 addressing, TCP/IP, introductory subnetting, basic connectivity troubleshooting

Cloud: AWS fundamentals and Cloud Practitioner training; Microsoft Azure coursework

Systems: Windows, Linux, macOS, Parallels Desktop, virtual machines, basic SSH remote access, Raspberry Pi

Development: HTML, CSS, introductory API integration, Discord bot development

TECHNICAL PROJECTS & LAB EXPERIENCE

Cisco Networking Labs - Cisco Packet Tracer | Built simulated network environments; configured basic routers, switches, IPv4 addresses, interfaces, VLANs, and access settings. Used IOS commands to inspect configurations.

API-Driven Discord Bot - Personal Project | Developed an introductory Discord bot project integrating an external API, with environment-based configuration and JSON files for basic player registration and session data persistence.

Virtualization & Raspberry Pi | Used Parallels Desktop to run virtual machines on macOS and established basic SSH connections to Raspberry Pi devices.

EDUCATION & TRAINING

Associate of Applied Science (AAS), Networking Technology and Cloud Computing

EXPECTED SUMMER 2027

Mississippi Gulf Coast Community College

Cosmetology Program

GRADUATED 2016

Mississippi Gulf Coast Community College

Selected coursework: IT Project Management; Introduction to IoT; CCNA 1: Intro to Networks (in progress); Introduction to Cloud Computing; Principles of Cloud Security; AWS Cloud Infrastructure; Microsoft 365 Administration; Microsoft Azure Fundamentals.

Additional training: AWS Cloud Practitioner course completed; certification exam preparation in progress. IT Fundamentals coursework in progress.

ADDITIONAL PROFESSIONAL EXPERIENCE

Beauty Retail Associate

2016-2017

Ulta Beauty

Provided customer service and product guidance, addressed customer concerns, processed point-of-sale transactions, and supported merchandise presentation and inventory activities.
